X Biennal d'Ex-libris Contratalla

Despite of the difficulties of these two years of the Covid pandemic, I believe that the aims of the calling of the competition of the X Contratalla Biennial have been totally fulfilled with the taking part of artists from Argentina, Belarus, Belgium, Brazil, Bulgaria, Catalonia, Czech Republic, Estonia, Finland, France, Greece, Hungary, Italy, Japan, Latvia, Lithuania, Mexico, Norway, Poland, Romania, Russia, Serbia, Turkey, Ukraine, and USA.

Although the extraordinary situation in which we found ourselves made the participation lower this year, the artistic quality of the works presented is excellent. The different forms of expression, the styles, the aesthetics, the diverse techniques used and, to sum up, the accomplished plastic results are real evidence of what is today the art of the ex-libris.

A pesar de las dificultades de estos dos años de pandemia de Covid, creo que los objetivos de la convocatoria del concurso de la X Bienal de Contratalla se han cumplido totalmente con la participación de artistas de Argentina, Bielorrusia, Bélgica, Brasil, Bulgaria, Cataluña, República Checa, Estonia, Finlandia, Francia, Grecia, Hungría, Italia, Japón, Letonia, Lituania, México, Noruega, Polonia, Rumanía, Rusia, Serbia, Turquía, Ucrania y Estados Unidos.

Aunque la extraordinaria situación en la que nos encontramos ha hecho que la participación sea menor este año, la calidad artística de las obras presentadas es excelente. Las diferentes formas de expresión, los estilos, la estética, las diversas técnicas utilizadas y, en definitiva, los logrados resultados plásticos son una verdadera prueba de lo que es hoy el arte del ex libris.

Trotz der Schwierigkeiten in diesen beiden Jahren der Covid-Pandemie glaube ich, dass die Ziele der Ausschreibung der X. Contratalla Biennale mit der Teilnahme von Künstlern aus Argentinien, Belarus, Belgien, Brasilien, Bulgarien, Katalonien, der Tschechischen Republik, Estland, Finnland,

Frankreich, Griechenland, Ungarn, Italien, Japan, Lettland, Litauen, Mexiko, Norwegen, Polen, Rumänien, Russland, Serbien, der Türkei, der Ukraine und den USA voll erfüllt wurden.

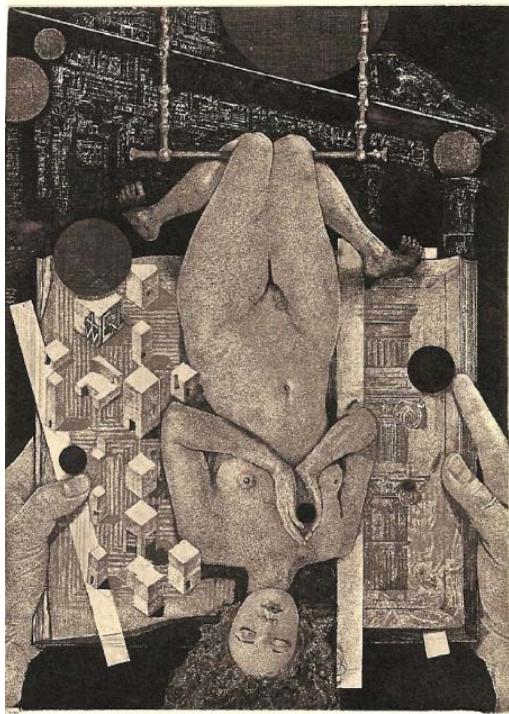

Obwohl die außergewöhnliche Situation, in der wir uns befanden, in diesem Jahr zu einer geringeren Beteiligung führte, ist die künstlerische Qualität der präsentierten Werke hervorragend. Die verschiedenen Ausdrucksformen, die Stile, die Ästhetik, die unterschiedlichen Techniken und schließlich die vollendeten plastischen Ergebnisse sind ein echter Beweis für die heutige Kunst des Exlibris.

Malgré les difficultés de ces deux années de pandémie de Covid, je crois que les objectifs de la convocation du concours de la Xème Biennale de Contratalla ont été totalement atteints avec la participation d'artistes d'Argentine, de Biélorussie, de Belgique, du Brésil, de Bulgarie, de Catalogne, de République Tchèque, d'Estonie, de Finlande, de France, de Grèce, de Hongrie, d'Italie, du Japon, de Lettonie, de Lituanie, du Mexique, de Norvège, de Pologne, de Roumanie, de Russie, de Serbie, de Turquie, d'Ukraine et des Etats-Unis.

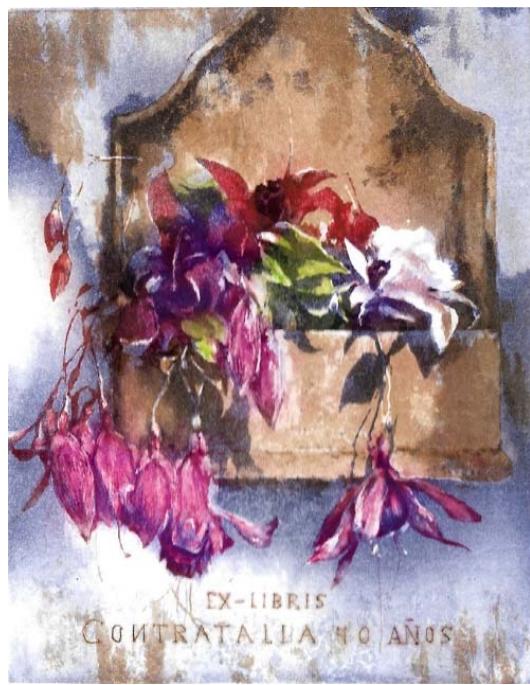

Bien que la situation extraordinaire dans laquelle nous nous trouvons ait fait baisser la participation cette année, la qualité artistique des œuvres présentées est excellente. Les différentes formes d'expression, les styles, l'esthétique, les diverses techniques utilisées et, pour résumer, les résultats plastiques accomplis sont de véritables témoignages de ce qu'est aujourd'hui l'art de l'ex-libris.
